Subject: WEEK #5 - Fw: Verification/Completeness Check for Dimock (R6 12SF073 Posted Apr 05)

Hi Cindy and Robin -

We were asked to be ready to release the "week 5" data along with "week 4" during the week beginning April 30th. As you know, we have completed the project level review and finalized all the week 4 data.

Week 5 includes only 4 sampling locations (HW-50, HW-56, HW-60, HW-61). For week 5 - the R2, R9 and NEL (micro) data has all been reviewed and is considered final. However, the R6 and R3 data still need to be finalized. review of the R6 report is attached. I will forward her review of R3 separately.

**Ex. 4 - CBI**

I am sorry for the pressure - but I am hoping that you will be able to review both and provide responses no later than COB next Tuesday April 24th. Once we have the final qualifiers in Scribe - we will run the draft tox reports and residential reports for review by R3 tox, WPD, ATSDR and HQs. To make the deadline for roll-out - we need to get these reports to HQs no later then next Wed April 25th.

Thanks again - Kelley
